

**KEY**

-  Category A  
Trees whose retention is most desirable:  
Good condition at least 40 years SULE High category
-  Category B  
Trees whose retention is desirable:  
Fair condition or immature trees with potential to develop into high category  
at least 20 years SULE Moderate category
-  Category C  
Trees which could be retained:  
Poor condition at least 10 years SULE or immature trees of no particular merit  
Low category
-  Category U  
Trees unsuitable for retention  
Dead, dying or structurally dangerous Fell category
-  T1/G1  
Individual tree or group survey reference
-  Existing individual trees and shrubs recorded but not surveyed
-  Root Protection Area (RPA)  
The area surrounding a tree that contains sufficient rooting volume to ensure  
the survival of the tree
-  Modified Root Protection Area (RPA)  
The area surrounding a tree that contains sufficient rooting volume to ensure  
the survival of the tree and is to be left undisturbed during construction works  
but which is asymmetrical due to constraints such as foundations or walls
-  Trees approved for and recently felled
