Drawing: Proposed Block Plan

Scale 1:200 @ A4

Date: 2/7/15

Dwg n^o: PL04

Rev	Date	Details

Notes:

- Existing drive opening is 2590mm wide.
- The existing wall height is 450mm with hedge above with an average height of 1600mm. There are two pillars on either side of the current opening, which are 1120mm high.
- Proposed drive opening is 4200mm wide. Works consist of removing existing brick pillar and 1610mm of wall, and rebuilding a new brick pillar to a height of 1120mm to match the original.
- There is an existing lamp post located nearby, which will be 300mm away from the proposed enlarged opening.
- Drive is block paved and shown on the plan. The block paving will be made good to account for the enlarged opening, but will not be altered otherwise.
