The Kenilworth Porch Cycle Compound has all the benefits of the popular Kenilworth cycle shelter but with the added security of a side panel and lockable door which fully encloses the compound ensuring floor to roof security.

- Constructed from heavy duty box section welded end frames it has a tough and robust structure
- Curved roof design is stylish but also allows water to rain away
- Excellent visibility due to clear PETG cladding
- Zinc powder coated finish in any RAL colour
- Also available fully galvanised
- Leg frames can wither be bolted to the floor or grouted into the ground
- Designed for use with our Sheffield Cycle Hoops and Racks
- Initial shelters can be linked side by side to form longer runs
- Available with Perspex or Decorative Steel Doors
- Vandal resistant features

Dimensions:

- Height (H): 2230mm
- Depth (D): 2150mm

Choice of three Widths (W):
