

HERITAGE STATEMENT

Whilst THE OLDE HOUSE is a grade 2 listed building, the extent of the fabric that contributes to its listing is essentially limited to the features that contribute to the frontage on to Front Street. The back garden is very private and not visible at all from the main road and is only partially visible from neighbouring properties.

We are wanting an outdoor seated area which is covered to protect against the weather.

We have decided upon a well established company to provide the gazebo (Breeze House 01538398488 www.breezehouse.co.uk) to construct it.

The model is a Savannah Oval.

The open wooden construction will be sympathetic to the garden and the whole property.

The gazebo is hand crafted from redwood and has cedar shingles on the roof giving aesthetics and durability and will be sympathetic to the garden and the property as a whole.
