NOTES:

- For Planting Schedule see drawing number 50/493-106
- All works to be carried out in accordance with best horticultural practice and to the latest British Standard.
- All existing vegetation to be retained shall be identified and protected prior to works commencing on site.
- Planting within depths shall not exceed 400mm height. For specimen trees and shrubs the planting shall be carried out in accordance with the relevant British Standard.
- No tree planting shall occur within 2m of underground services or drainage runs without tree root management product by Greenleaf (or similar approved), or within 2m of overhead cables.
- All local to BS 3883: 1994, Premium Grade, ameliorated with fertilizer and soil conditioner.
- All Ericaceae and Saurau Stereoid trees to be planted in prepared pits, min 1000mm dia x 1000mm deep with min 150mm clearance around football, backfilled with ameliorated topsoil. All trees to be securely staked.
- Ornamental plants will be delivered in prepared 450mm deep beds, backfilled with ameliorated topsoil
- Grass seeding to be carried out on prepared seedbed, topsoil min depth 150mm.
- All planting to be carried out in season (November to March), summer but these will remain mulched and maintained in weed-free condition until the earliest appropriate planting season. Should programs require planting out of season all stock will be watered-in before and after planting.
- All planting subject to minimum 12months concurrent maintenance and defect liability period.
