PC	Pyrus calleryana 'Chanticleer'	8 - 10cm	As Shown on Plan	3
AC	Ampelanchier canadensis	8 - 10cm	As Shown on Plan	3
ME	Malus 'Evereste'	8 - 10cm	As Shown on Plan	5

NOTES:

- All works to be carried out in accordance with best horticultural practice and to the British Standards.
- All existing vegetation to be retained shall be identified and protected prior to work commencing on site.
- Planting with lightnings shall not exceed 600mm height, standard trees shall be ordered so that their stems do not present a walk through canopy.
- No tree planting shall occur within 2m of underground services or drainage runs without tree root management product by Greenleaf (or similar approved), or within 2m of overhead cables.
- All topsoil to BS 3882: 1994 Premium Grade, ameliorated with fertilizer and soil conditioner.
- All Ervo Heavy and Select Standard trees to be planted in clearance around rootball backfilled with ameliorated topsoil. All trees to be securely staked.
- Ornamental shrubs will be planted in prepared 400mm deep beds, backfilled with ameliorated topsoil
- Cross seeding to be carried out on prepared seedbed, topsoil min depth 150mm.
- All planting to be carried out in season (November to March). Program may require preparation of planting areas during the summer but these will remain marked and maintained in season. Should programs require planting out of season, all stock will be watered before and after planting.
- All planting subject to minimum 2 months concurrent maintenance and defects liability period.
