

Hi Garry

Re conversation i have put together a letter below for the Highway department also see pictures attached ::

To Whom it may concern

We have been asked to clarify a few details about our Temp Caravan Storage .

1. All vehicles (caravans) have access straight into our property as it goes straight on to the field so we could have a few caravans coming in at the same time and they would just come straight in to the property . Worse scenario all 30 caravans could come in quickly at the same time on to the field then move into the storage area with out stopping the flow of traffic on the road .

2. Once they are in they can go straight into the parking area . All caravans are placed around the perimeter for the old tennis courts so they have easy access with a large space in the centre to manouver there caravans .This also means they can just drive straight out when leaving

3. There are no parking bays marked on the court but they are given a place when they first come in . We anticipate around 30 caravans approx in the storage area when full .

4. They are given keys for access and are also given times for removing /bringing back their caravans . Times are between 8am-8pm .

The caravans are not moved on a regular basis .

5. If for any reason they can not get into the property ie. lost key .

They are instructed to park their caravan in our front car park .

Any further information please contact me .
