**Planning Application For Proposed Agricultural Storage and livery Building.**

**TW Alderslade & Sons  
West Fellgate Farm  
Wardley  
Gateshead  
NE108YD**

The building will be clad in 0.5 mm box profile vented sheets (Juniper Green). The side cladding will be down to the top of 2m high concrete panels. The building will be accessed by two Sliding doors placed at both gable ends of the building. The Roof will be clad with profile 6 fibre cement roof sheets, and there will be 12 translucent roof lights.

The building is needed for extra storage for agricultural equipment and part of the building will be used for horse livery in the future.

No foul sewage drainage shall be required and all rain and surface water drainage will run into existing culvert.

Access to the site will be through the farm which is under control of the applicant. The site is approx 150 metres from nearest main road.

Any queries regarding the attached please do not hesitate in contacting us immediately.
