Your attention is drawn to the attached schedule of notes which form part of this notice

NOTES

1. This certificate is issued under the Town and Country Planning Acts, Regulations and Orders and does not constitute a permission, approval or consent by South Tyneside Council for any other purpose whatsoever. Applications must therefore be made to the appropriate Departments of the Council for any other permission, approval or consent (including Building Regulations approval or approval of South Tyneside Council as ground landlord where appropriate) which may be necessary in connection with the proposed development or anything incidental thereto, or the use to be made of the premises which form the subject of such development.

2. You may also require permissions, approvals or consents under other legislation, or from bodies other than South Tyneside Council. This could include works affecting a public sewer, gas main, or electricity line, works within the adopted highway, works affecting a public right of way, property covenants, legislation relating to disabled persons, land drainage consent, waste management consent, scheduled monument consent or works affecting protected habitats or species.

3. Any non-material change to the approved plan(s) that form part of this permission would require the submission of an application for a non-material change under section 96A of the Town and Country Planning Act 1990. Whether changes to a proposed development are considered non-material is a matter for Planning Authority discretion.

4. Your attention is drawn to your responsibilities under the Chronically Sick and Disabled Persons Act 1970 and the Disability Discrimination Act 1995 relating to disabled persons, to ensure that adequate attention has been paid to their needs. If the proposed development involves new or existing buildings to which the public are to be admitted, or offices, shops, railway premises, factories or educational buildings, provision should be made for the means of access, parking and sanitary conveniences to meet the needs of disabled people. In addition, appropriate signposting of the facilities should be provided. In carrying out these statutory obligations your attention is drawn to the "Code of Practice for Access for the Disabled to Buildings" (BS5810:1979). You are advised to seek professional advice to ensure that you meet your legal obligations under the Disability Discrimination Act 1995, especially with regard to Part III thereof.
