

This line indicates the internal face of the Mill wall as the diameter of the Mill decreases as the staircase ascends due to it's vertical taper .
It does not indicate an ever increasing gap between the wall and the staircase.
The width of each tread decreases as the staircase ascends and each tread will butt up to the external wall but will not be built into it, so as not to interfere with the historic fabric.

PROPOSED FIRST FLOOR PLAN

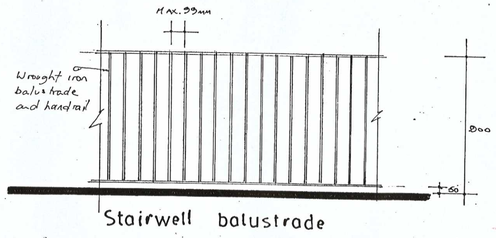

Staircase balustrade

This line indicates the internal face of the Mill wall as the diameter of the Mill increases as the staircase descends due to it's vertical taper .
It does not indicate that the staircase has been drawn into the wall.

PROPOSED SECOND FLOOR PLAN

Stairwell balustrade

PROPOSED REPLACEMENT STAIRCASE AT 'THE MILL' 24, MANSFIELD COURT, BOLDON

PROPOSED PLANS SCALE 1:20

AMENDED PLAN
