Planning Application for Car Park to;

Temple Park Leisure Centre.

Open Space Assessment- date 4/6/19.

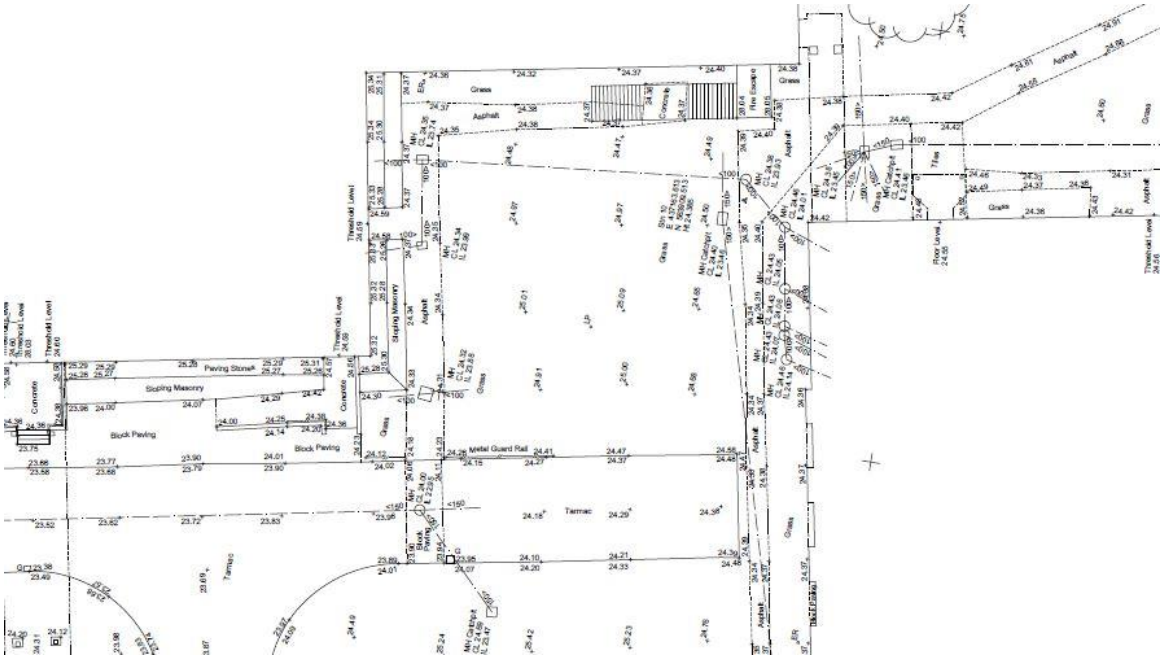

The area in which the proposed car park is to be located occupies and comprises of two differing adjacent areas as existing;

1- The former changing area of the TPLC Pool and
2- Small grassed area of 315m2.

The small grassed area is an area of unmaintained grass in the form of a mound, path level at 24.340 and lighting column in the middle at a level of 25.090, this is 750mm difference in level and the space has not been used for any Sporting activities connected with TPLC. The area is surrounded by footpaths and an existing access Road

TPLC Pool is currently being demolished under Planning Application ST/0610/18 and the footprint area of this Building, 4424m2, is being returned to open space with grass seeding. This area will replace the grassed area lost as part of the car park development.
