GEORGE F.WHITE

HIGHWAYS ADDITIONAL INFORMATION

The following statement is submitted on behalf of the applicant in relation to planning application ST-0139-22-FUL at the Former West Boldon School Site, which seeks to redevelop the site for 5no. dwellings. It is understood the LPA highways team have requested confirmation visibility can be achieved in each direction. The accompanying plan illustrates that visibility can largely be achieved in both directions. As additional context the images below further illustrate sufficient visibility at the access point to enable the development of 5no. dwellings.
