Open Space Assessment
56 Summerhill Road, South Shields, NE34 6RZ

The open space is a grassed area situated in front of my property and stretches in front of a further 5 houses along the street.
The area in question is currently a grassed area directly adjacent to my property measuring 4.2m by 7.6m.
The land is not currently occupied or being used.
South Tyneside Council would not be losing anything if I am able to purchase the land in order to add off street parking to my property.
If anything, it would save the council time and money as they would not have to maintain the land.
