Description of the site and of the proposals

In summary, the planning permission (reference: ST/0895/22/LAA) granted (subject to conditions) the development of a new two storey childrens home with an annex suite of accommodation.

Details within this request are for the following four planning conditions:

3 - Drainage details (to be consistent with those previously submitted details and to include evidence of agreement to connect to NWL and maintenance)
4 - Contaminated land remediation strategy
7 - Facing materials for the building (given indicative information for these when permission was granted)
10 - Hard surface treatments (given indicative information for these when permission was granted)

Publicity / Consultations

1) **Neighbour responses:** N/A

2) **Other Consultee responses:**

Lead Local Flood Authority: The drainage details and their maintenance are acceptable.
Environmental Protection: The contaminated land remediation strategy is acceptable.

Assessment

In relation to conditions 3, 7 and 10, the submitted details are consistent with what was indicatively being shown when planning permission was granted (with the details for condition 3 including evidence of agreement to connect to NWL and maintenance), and with regards to condition 4 providing the contaminated land remediation strategy.

Having regard to the submitted details and the consultation responses (in relation to drainage and the contaminated land remediation strategy), it is considered that sufficient information has been submitted to enable these conditions to be discharged; in accordance with LDF Policies (as set out above).

In assessing this application due regard has been had to the requirement of section 149 of the Equality Act 2010.
