# NATURAL ELEMENTS® 45° MODULE

Natural Elements® combines **modular and standalone** street furniture **inspired by biophilic design** that aims to introduce natural forms, patterns and materials into urban spaces.

The 45 degree module acts as a connector for the Natural Elements system. Allowing the creation of sweeping bends within a seating configuration. Ideal for projects requiring a bespoke approach in order to navigate more complex spaces. Combine with other modular elements in the collection in any sequence.

- ✓ Inspired by the forms, patterns, materials and colours that resemble nature
- ✓ FSC® certified timber responsibly sourced from well managed forests (FSC® C133609)
- ✓ Shape and form, good deterrent for skateboarders
- ✓ Option to Illuminate with low level lighting, create safer 24 spaces
- ✓ Modular elements allow design flexibility and budget control
- ✓ Ability to go round corners at 45° angles

CHOSEN MATERIAL: TIMBER – REDWOOD RUSTIC BROWN
