CITI ELEMENTS® SEAT

Citi Elements® is an exciting **new collection of street furniture** offered in a choice of materials and finishes providing **customisation** at **affordable prices**.The **multi-material design** means there is a configured solution to suit almost any landscape.

This versatile design uses simple forms of shape and geometry matching multifaceted use across a variety of environments. Select from a seat, bench, table and a combination of materials to suit your budget and match your project. For finer detailing, seat and frame finishes are available for maximum impact.

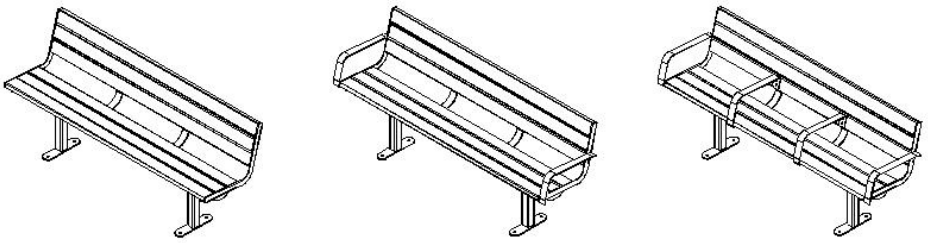

Furthermore; the use of eco-friendly materials, including 100% recycled plastic and FSC® certified hardwood and softwood timber, help to protect the planet for future generations.

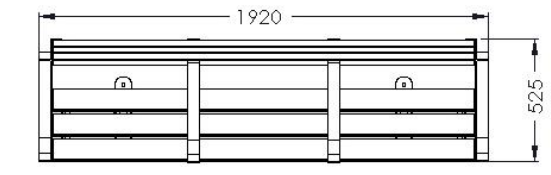

- ✓ Simple, affordable design where form meets function
- ✓ Choice of materials and finishes to suit the landscape
- ✓ Seat, bench, table option provide scope to vary usage
- ✓ FSC® certified timber responsibly sourced from well managed forests (FSC® C133609)
