Dear Sir/Madam,

Regarding: Preplanning application for 50 seat supporters stand.

I am acting on behalf of Boldon CA FC to Project Manage the installation of a new covered seating facility at their home football ground, located at the following address: -

Boldon CA FC Sports Ground, Cotswold Lane. Boldon Colliery. NE35 9LN.

As part of the EBAC, Northern League stadium grading requirements the club are obliged to have covered seating for 50 supporters. The seating arrangement that is proposed for installation is to be provided by Sports Ground Development. Please refer to document CIW-CTG-160-4-50-STR for a detailed scale drawing. As part of this pre-planning application package, I have also included a sketch of where the stand is to be installed within the ground.

As part of the project we will be installing a concrete foundation, upon which the stand will be installed. The club are currently out to tender for the civil works and will advise on the chosen contractor in due course.

The works will take place solely on the club grounds. Access to the site will be via the Shack Public House car park entrance and the unnamed carriage way the runs to the ground.

Please advise on our next steps with the planning permission application.

Yours Sincerely.
Steven Dunlop
