**NOTES TO APPLICANT:**

1 Approval of a Biodiversity Gain Plan NOT REQUIRED before development commences

The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for the development of land in England is deemed to have been granted subject to the condition "(the biodiversity gain condition") that development may not begin unless:

(a) a Biodiversity Gain Plan has been submitted to the planning authority, and
(b) the planning authority has approved the plan.

However, based on the information available, this permission is considered to be one which will not require the approval of a biodiversity gain plan before development is begun because one or more of the statutory exemptions or transitional arrangements are considered to apply - please refer to Biodiversity net gain: exempt developments - GOV.UK (www.gov.uk).

**Your attention is drawn to the attached schedule of notes which form part of this notice**

## NOTES

1 This certificate is issued under the Town and Country Planning Acts, Regulations and Orders and does not constitute a permission, approval or consent by South Tyneside Council for any other purpose whatsoever. Applications must therefore be made to the appropriate Departments of the Council for any other permission, approval or consent (including Building Regulations approval or approval of South Tyneside Council as ground landlord where appropriate) which may be necessary in connection with the proposed development or anything incidental thereto, or the use to be made of the premises which form the subject of such development.

2 You may also require permissions, approvals or consents under other legislation, or from bodies other than South Tyneside Council. This could include works affecting a public sewer, gas main, or electricity line, works within the adopted highway, works affecting a public right of way, property covenants, legislation relating to disabled persons, land drainage consent, waste management consent, scheduled monument consent or works affecting protected habitats or species.

3 The approved development should be implemented in strict compliance with all of the planning conditions, and in particular any which require details to be approved prior to the commencement of the development. Failure to do so may result in any commencement of development being unauthorised, which could be liable to enforcement action.

**APPEALS TO THE SECRETARY OF STATE**

4 **Only the applicant possesses the right of appeal**

If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 20 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

If you want to appeal against your local planning authority's decision then you must do so within 6 months of the date of this notice unless:

- If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice [reference no. if applicable], if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of this notice; or

- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of service of the enforcement notice, or within 6 months of the date of this notice, whichever period expires earlier.

Appeals should be made online via Appeal a planning decision. If someone does not have access to the internet and needs help completing the appeal digitally, they should contact the Planning Inspectorate customer service team on 0303 444 5000 who will provide details of support options available.

Before making an appeal, you may find it helpful to review guidance and watch a video explaining the appeals process at Make an appeal to the Planning Inspectorate and associated guidance.

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. Further details are on GOV.UK.

**PURCHASE NOTICES**

5 If listed building consent is granted subject to conditions, whether by South Tyneside Council as Local Planning Authority or by the Secretary of State for Communities and Local Government, and the owner of the land claims that the land has become incapable of reasonably beneficial use by the carrying out of any development which has been or would be permitted, they may serve a purchase notice on the Council, requiring the Council to purchase their interest in the land in accordance with the provisions of section 32 of the Planning (Listed Buildings and Conservation Areas) Act 1990.
