No responses received

Relevant planning policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that an application for planning permission must be determined in accordance with the adopted development plan, unless material considerations indicate otherwise.

The statutory development plan comprises the Council's adopted South Tyneside Local Plan 2023-2040. Relevant policies are listed below:

- Policy SP1: Presumption in favour of Sustainable Development
- Policy 1: Promoting Healthy Communities
- Policy 47 Design Principles

National planning policy is also a material consideration in determining this planning application. Relevant national policy comprises the National Planning Policy Framework (NPPF), National Planning Practice Guidance (NPPG), the National Design Guide and the National Model Design Code.

Assessment

Policy 47 of the Local Plan sets out that all development, including extensions and alterations to existing buildings, shall provide for high quality design that is sustainable, accessible to all users, safeguards residential amenity and contributes positively to the character and visual amenity of the borough's townscapes, landscapes and seascapes.

Having regard to the design, scale, massing and relationship with neighbouring properties of the proposed development, it is considered that it would not give rise to significant harm to the visual amenity of the area or the residential amenity of any neighbouring properties.

Conclusion

In conclusion, and having regard for all of the above, it is considered that the proposal would have an acceptable impact upon the residential and visual amenity of the area. It is considered that the proposal complies with all relevant local and national planning policy and the application is therefore recommended for approval.

Recommendation

Grant Permission Householder with Conditions

Conditions

1. The development to which this permission relates must be commenced not later than 3 years from the date of this permission.

   As required by Section 91 of the Town and Country Planning Act 1990 and to ensure that the development is carried out within a reasonable time.

2. The development shall be carried out in accordance with the approved plan(s) as detailed below

   Proposed Elevations and Floor Plan Drg. No. E102 Rev A received 11/08/2026
   Existing and Proposed Site Plan received 11/08/2026

   To define this permission and for purposes relating to section 73 of the Town and Country Planning Act 1990.

3. The external surfaces of the development hereby permitted shall be as detailed on the approved plan below

   Proposed Elevations and Floor Plan Drg. No. E102 Rev A received 11/08/2026

   To ensure a satisfactory standard of development and in the interests of visual amenity, in accordance with Local Plan Policy 47.

Informatives

1. Approval of a Biodiversity Gain Plan NOT REQUIRED before development commences

   The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for the development of land in England is deemed to have been granted subject to the condition "(the biodiversity gain condition") that development may not begin unless:

   (a) a Biodiversity Gain Plan has been submitted to the planning authority, and
   (b) the planning authority has approved the plan.

However, based on the information available, this permission is considered to be one which will not require the approval of a biodiversity gain plan before development is begun because one or more of the statutory exemptions or transitional arrangements are considered to apply - please refer to Biodiversity net gain: exempt developments - GOV.UK (www.gov.uk).

2. The proposed development lies within a coal mining area which may contain unrecorded coal mining related hazards. If any coal mining feature is encountered during development, this should be reported immediately to the Mining Remediation Authority on 0345 762 6846 or if a hazard is encountered on site call the emergency line 0800 288 4242.

   Further information is also available on the Mining Remediation Authority website at: Mining Remediation Authority - GOV.UK
